IPSD (Independent Professional Skills Development):

Time accommodates the needs and interests of each intern. Interns may utilize these weeks to explore a particular specialty area at their scheduled practice site. Alternatively, interns might spend this week on self-directed study and preparation. If needed, this week can also be used towards the required hours for any rotation due to weather, illness, or bereavement.

CONCENTRATION:

All interns will return to Site 1 or Site 2 of Community
The Diabetes Concentration requires a separate application after the intern is matched & must be completed in the Lehigh Valley.
