An abbreviated Lifeguarding course that reviews course information and allows practice of skills before testing. Current certification in Red Cross Lifeguarding/First Aid/CPR/AED is required to participate in the review course or a certification expired by NO MORE THAN 30 days. Students who successfully complete this course will receive a certificate for Lifeguarding/First Aid/CPR/AED which is valid for 2 years.

Lifeguard Review participants will be asked to show their valid American Red Cross Lifeguarding certification, with QR code, at the beginning of class. If you can't locate your certificate, please visit [www.redcross.org/getcertificate](http://www.redcross.org/getcertificate) to reprint your digital certificate. If you are unable to obtain your certificate through this site, call 1-800-REDCROSS.

Participants MUST be prepared to take the Lifeguarding pre-test listed below as well as participate in all water and land skills. It is strongly recommended for participants to review their Lifeguarding manual.

- Surface dive (feet-first or head-first) to a depth of 7 – 10 feet to retrieve a 10-pound object.
- Return to the surface and swim 20 yards on the back to return to the starting point, holding the object at the surface with both hands and keeping the face out at or near the surface.
